

REMARKS:

The Specification was amended to add Headings, correct spelling, move the Figures, add a Brief Description of the Figures, and add an Abstract, to correspond to U.S. patent practice. It is believed no new matter was added.

The claims were amended to remove multiple dependencies, to correctly use Markush groupings, and to change the language to match US Patent practice. New claims were added to place multiple ranges as separate claims. It is believed no new matter was added by these amendments.

Examination and allowance of the new claims are earnestly solicited.

Respectfully submitted,

Thomas F. Roland
Attorney for the Applicants
